

# Anglican Parish of Grovely

THE COMMUNITY OF ST MATTHEW'S & ALL SAINTS'

Turrbal and Jagera Country

*Parish Vision: To personally and corporately know God in our lives more deeply and to live truthfully, creatively, honestly and lovingly.*

If you are visiting today, please make yourself known to the Priest and Welcomers; they will be able to help you with information about the parish.

- ♦ **Holy Communion** is available for all those whose practice it is to receive the sacrament, whatever denomination.

*From Fr Stephen*

Today being Trinity Sunday, our focus is on God in three persons, Father, Son and Holy Spirit: the Divine relationship. We are made to be in relationship and outside of relationships we die. We may not die physically for some time, but we will certainly experience spiritual and emotional death rather quickly which in turn will affect our physical/mental health and wellbeing.

As we start Reconciliation Week, we are all further reminded of the need to reconcile and build our relationships with our with Aboriginal and Torres Strait Islander brothers and sisters of this country to a place of equity, dignity and respect. As the Church we are to be committed to assisting, encouraging and resourcing ministry to Aboriginal and Torres Strait Islander people and to work with each other as equal partners in the development of our Church and land, in our communities, parishes and diocese.

*Blessings*

*Fr Stephen*

*Prayer for Presence*

*At the beginning of time and at the end  
you are God and I bless you.*

*At my birth and in my dying,  
in the opening of the day and at its close,  
in my waking and my sleeping,  
you are God and I bless you.*

*You are the first and the last,  
the giver of every gift,  
the Presence without whom there would be no present,  
the Life without whom there is no life.*

*Lead me to the heart of life's treasure  
that I may be a bearer of the gift.*

*Lead me to the heart of the present  
that I may be a sharer of your eternal presence.*

*(J Philip Newell)*

Bee populations are under threat. Destruction of their natural habitat, intensive farming practices, and pests and diseases are just some of the complex reasons driving a decline in both the number and diversity of bees.

Without bees, our food security is at risk.

Some species of plant can only be pollinated by a particular species of bee. In the absence of pollination, the plant species cannot reproduce so if that bee species dies, so too will the plant.

Without bees, biodiversity is at risk

Maintaining plant diversity supports other essential ecosystem services including helping to regulate climate, purify air and water, build soil and recycle nutrients.

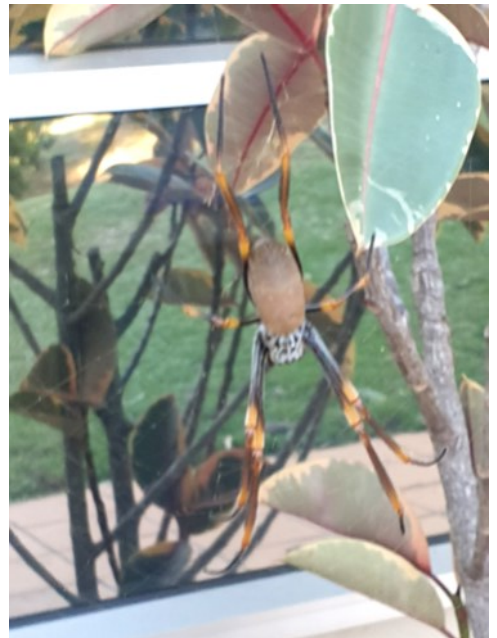

Without bees, ecosystems are at risk.
